Book Future: Easy Step By Step Drawing 100 Page Surprise Gifts For You 8.5 x 11" Inch Size Beautiful Design Buy & Learn Drawing Chopped, slammed, channeled, blown . . . in the late '50s and early '60s all of these features lent themselves nicely to the rise of hot rod art that caricaturized the already severe design traits associated with these cars. Usually, the rods and customs in this art were piloted by slobbering, snaggle-toothed "monsters" with bulging, bloodshot eyes. Thanks to the iron-on T-shirt boom of the '70s and a raft of younger artists working today, hot rod monsters have persevered. Now award-winning car-designer Thom Taylor and legendary kustom culture figure Ed Newton reveal the tricks and techniques used by masters past and present to render these whack rods and their warts-and-all drivers. Beginning with a brief history of the form, the authors examine figures like Stanley Mouse, Ed Roth, and Newton himself, then reveal how those pioneers influenced modern artists like Keith Weesner, John Bell, and Dave Deal, to name a few. In addition to offering chapters covering topics like equipment, perspective, light sources, and other technical considerations, Taylor expands on the cartooning, proportion, and color chapters from his previous works, applying them to the subject at hand. Also includes dozens of examples of the form from many of the above-mentioned artists and more. Draw 50 Cars, Trucks, and Motorcycles shows artists of all levels how to draw with ease by following simple step-by-step examples. Celebrated author Lee J. Ames shows you how to draw your favorite hot rods, sports cars, and clunkers, including Rolls-Royces, Bentleys, dump trucks, tandem bikes, and Harley-Davidsons, with drawings of classic models from 1870 to 1984. Ames's drawing method has proven successful for children and adults of all ages over the past forty years. The twenty-nine books in the Draw 50 series have sold more than 5 million copies and have shown artists from beginning to advanced levels how to draw everything from animals to airplanes. It's easy to have your dream car at your fingertips when it's done the Draw 50 way. Step-by-step illustrations explain everything from basics like perspective and proportion to advanced techniques like shading. This book provides excellent how-to-draw detail that is appealing and easy to follow for Hot Wheels(tm) and drawing enthusiasts from ages 10 to adult. Detailed drawing techniques with descriptive captions allow readers to create their own automotive designs. Illustrations emphasize how to draw fantasy, custom, concept, and hot rod cars. Author Scott Robertson uses original Mattel artwork throughout the book. With real Mattel artwork featured in detail, the bo0ok has great appeal for collectors, even if they aren't aspiring artists. Because Hot Wheels(tm) diecast cars are modeled after both real and fantasy vehicles, the techniques and interest to readers is the same as for real-life car enthusiasts. The automobile seems to be as popular now as it ever was. Posters of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the

different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book also features an easy to follow index for quick reference on different types of drawing. Learn how to draw many different types of cars throughout the ages, from the classic Beetle to the flame-covered Hot Rod right up to the speedy NASCAR racer. Presents step-by-step instructions for drawing basic cars and different models, such as the Lamborghini, Ferrari, and Volkswagen. Children do not become artists overnight. There are a number of different things which help them improve their drawing skills. Without practice, they will not improve. Without dedication, their technique will not develop. And without a simple, step-by-step guide like this one, which is designed to make drawing fun, they will not be passionate. One important thing to remember is that no child will create perfect sketches. When we are younger, it is in our nature to be messy and to experiment as we learn. This means that as a parent or guardian, teaching your children to draw requires a lot of patience. It is likely that your children will want to produce quality drawings straight away and may become frustrated when they cannot do this as well as you can. This is why having a guide such as this one is so important. It teaches kids that learning to draw does not happen at once. In this long-awaited follow-up to the best-selling first edition of *How to Draw Cars Like a Pro*, renowned car designer Thom Taylor goes back to the drawing board to update his classic with all-new illustrations and to expand on such topics as the use of computers in design today. Taylor begins with advice on selecting the proper tools and equipment, then moves on to perspective and proportion, sketching and cartooning, various media, and light, shadow, reflection, color, and even interiors. Written to help enthusiasts at all artistic levels, his book also features more than 200 examples from many of today's top artists in the automotive field. Updated to include computerized illustration techniques. There are some cool creatures that live in the sea—from the octopus, which can change its appearance to blend in with its surroundings, to 30 different species of dolphins! Penguins, walruses, and crabs are other amazing animals that can be found in or near the sea, too. Readers learn to draw these and other sea creatures with the help of detailed, step-by-step instructions and helpful illustrations, including full-color examples of each finished drawing. As readers draw, they learn about art as well as science. Fascinating facts about animal life cycles, diets, and habitats are presented before readers start drawing each animal. Discovering new information in a creative way makes learning fun! If you've ever wanted to draw or design cars, this book is for you. *HOW TO DRAW COOL CARS* helps kids aged 7+ discover how to draw a Mini, a Jeep and even an F1 racing car with step-by-step drawing instructions and illustrations by artist Steve Capsey.
